Welcome to the Home Bar Company.

We've been making our exclusive range of drinks bars since 2009. All our products are made in house at our purpose built design studio workshop in Warwickshire.

We use only the best quality materials, we do not use recycled or off cut supplies and everything is precisely assembled using the best quality joining methods, we do not use any filler or nails on our products. All our bars are supplied to you ready to use without the need for any additional painting or varnishing.

We are always happy to welcome visitors and invite you to come and see them being made and check the high quality for yourself.

A Word About Our Bar Tops

Probably the most important part of your Home Bar is the counter Top. It needs to be highly durable and resistant from those inevitable spillages.

Stains such as red wine are impossible to remove from a wood grain untreated bar top.

All our tops are exclusively made for us using 30mm MDF and pressure bonded with genuine Formica Laminates in Hi Gloss Piano Black or Brushed Steel finish, all fully edged using 1mm ABS matching strip

Durable

Stain resistant

Stunning looks and finish

No other Home Bar manufacturer matches this quality.

Classic Range

Built to the same high quality standards as our other ranges with none of the extras.

Available in Walnut – Maple finish
